

## Pre-reading -General idea

# My hobbies

Hello!

My name is Nora and I live in Sweden. I live in a small village in the mountains. I love mountains and I can't imagine my life without them. I live with my parents and my little sister. She is six and I am eleven.

My mum's name is Helen and my dad's name is Nick. My mum is a fitness coach at my school and my dad is a farmer. We have a small milk farm. That's why I am fond of sports and animals.

I get up at 6.30 and do my morning training together with my mum. Then I wake my sister up. We have a big breakfast and our mum takes us to school by her car.

After lessons I stay at school to practice basketball. It's my favourite sport. At that time my sister trains at the singing club. After that I go home with my sister by bus because my mum has some evening trainings.

After school I like to help my dad to take care of calves. They are so nice! In the evening I like reading books or going out with my friends. We are crazy about riding bikes at the weekend. I have got a cool green bike. I think I am the best bike rider because I go in for sports every day.

## All About YouTube

YouTube is a website where people share videos. It was created in 2005 and now people can become famous and make a career out of it. Three men who worked for a different web company started YouTube in 2005. The very first video on YouTube showed one of the founders at the zoo. YouTube grew quickly throughout the following year after it was founded. Google bought YouTube for \$1.65 billion in stock in 2006. Since then, YouTube has continued to grow and has had a remarkable impact on the world. Now, many people create their own unique content for YouTube. There are lots of different types of content on YouTube, from funny videos to music videos. Some popular trends on YouTube include challenges and pranks. You can use YouTube to watch videos about anything you want, learn new things and create your own videos.

**Mobile phones**, or **mobiles**, are one of the newest inventions that many people use every day. Almost everyone, young or old, has a mobile phone now. Even in developing countries, many people own one. For example, Indonesia has a very high number of mobile phone users—more than 90% of people use them.

Mobile phones are popular because they make talking to others easy. You can call or send messages to someone far away in just seconds. Modern phones can also save many phone numbers, so we don't need a paper phone book anymore. Today's mobile phones have many helpful apps, like a calendar, alarm clock, stopwatch, and camera. You can even use some computer apps on a mobile phone.

However, phones also have some **problems**. They can distract people and even become addictive. Some people are addicted to taking **selfies**, using social media, or being on the internet too much. This can sometimes be dangerous. There are accidents where people get hurt because they were taking selfies in risky places. Many people also spend so much time on their phones that they don't talk to others face-to-face as much anymore.

Mobile phones are an important part of life today, but people should remember to use them **carefully and responsibly**.

**Answer :**

**What does the text tell us about?**

- a. The function of mobile phone.
- b. The use of mobile phone
- c. The way to operate a mobile phone
- d. The negative impact of mobile phone
- e. The advantages and disadvantages of mobile phones

## A Healthy lifestyle

The Thomson family has been trying to eat healthy meals for a very long time, but found it difficult to keep it up. Mr and Mrs Thomson work long hours at the hospital, and feel exhausted when they arrive home. They also have three young children who needed a lot of care. David is eight years old, their daughter Ann is six and the baby is one. It is difficult for the family to cook healthy meals every day. For months, Mrs Thomson has been ordering food during the week, which is delivered after they arrive from work. This is a bad routine, and the Thomson's know this fact very well and have started to worry that their children will get so used to eating fast food; it will be difficult for them to change this habit. For the past two weeks, they have been eating healthy homemade meals and feel very excited about it.
